To End Malaria

18 February, 2019

VCWG IRS/IRM Priorities Work Stream meeting 2019

Welcome and introduction

- Many thanks to everyone for taking the time to attend the IRS/IRM Work Stream session
- Participation is key to the success of this Work Stream
- Please continue to contribute and share your knowledge, experience and ideas with the Work Stream and your VC colleagues

Welcome and introduction

Time	Title	Speaker
14:30 – 14:40	Welcome and Introduction	Dereje Dengela Mark Hoppé
14:40 – 15:00	NgenIRS update	Molly Robertson
15:00 – 15:45 10 minutes each	What's new in IRS? <ul style="list-style-type: none">• Sub-national insecticide rotation, the 2018 experience• Smooth deployment of more than one insecticide in IRS, experience from the field• Cost effective approaches to IRS: Partial IRS application• Using the DHIS 2 platform to standardize data collection for IRS	<ul style="list-style-type: none">• Bradford Lucas• Jocelyn Ratovonjato• Aklilu Seyoum Abebe• Meghan Tammaro
15:45 – 16:15	Afternoon break with refreshments	

Welcome and introduction

Time	Title	Speaker
16:15 – 16:25	What's new in IRS? Continued <ul style="list-style-type: none">Increasing the use of data in IRS decision making	<ul style="list-style-type: none">Megan Littrell
16:25 – 16:45	Simple spatial intelligence approaches to optimize IRS planning, implementation and impact	Derek Pollard
16:45 – 17:05	Insecticide resistance in the main malaria vector in Sudan	Ayman Ahmed
17:05 – 17:25	Windows of selection: how do we expect selection pressure for insecticide resistance to change in the months after spray and net deployment?	Andy South and Ian Hastings
17:25 – 17:35	IRM MOOC update	Mark Hoppé
17:35 – 18:00	Wrap-up <ul style="list-style-type: none">Key learning pointsProposals for future Work Stream activities	Dereje and Mark
18:00	End of meeting	

Welcome and introduction

- Can we please remind all speakers to stick to time
- Please make a note of any key learning points, or ideas for Work Stream activities, and feed them back during the feedback sessions
- Please be concise with any feedback, focussing on where we can have a practical impact

Afternoon break

Please be back at 16:15

30=00

Welcome and introduction

18:00	End of meeting	

Update on Work Stream activities:

- IRM 'MOOC'
- Vector Learning Exchange

IRM 'MOOC'

MOOC – Massive Online Open Course

- Following the success of several online training courses in different aspects Public Health, the IRM MOOC aims to provide the participant with a solid grounding in best practice IRM within an IVM, and resource constrained, environment
- Everything in place, except full funding...
- Funding being actively sort

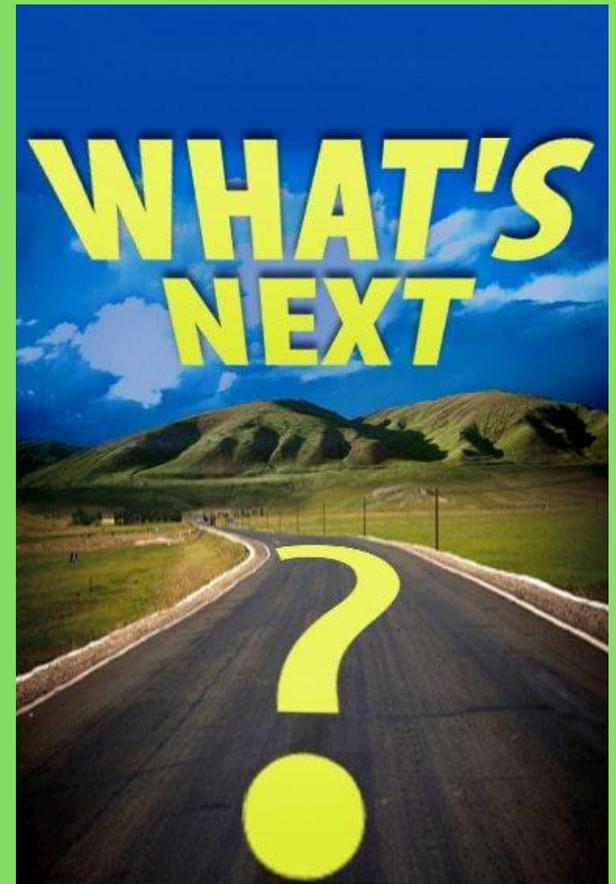

To support the objectives of the Vector LearningXchange

- In its first year, The Vector LearningXchange has reached over 6,828 users with over 29,115 page views as the platform continues to grow.
- In 2019, we are excited to introduce new content such as country specific entomological data and an insecticide resistance management open course (MOOC).
- We plan to facilitate cross-country collaboration among vector control stakeholders on our online platform, and we will continue to bring the most up to date resources on vector control.
- We have two exciting new webinars planned:
 - Data Analytics and Visualization for Decision Making
 - LLIN Assessments.
- And finally, through our community feedback survey, we plan to gather responses on how to better serve our online vector control community and continue to provide the most useful content.

Work Stream discussion and feedback

Wrap-up

- Key learning points
- Proposals for Work Stream activities
