AGENDA

Designing Multi-sectoral Projects and Programme: Challenges and Opportunities

Objectives of the 5th Annual RBM MSWG Meeting

This years' MSWG meeting will focus on design of multi-sectoral projects and programmes. In addition to welcoming presentations on experiences of implementing multi-sectoral projects, we will also include two half-day sessions dedicated to designing the implementation strategies for two of our work streams. (1) Healthy Cities Healthy People (2) Pathfinder Initiative. These sessions will look at governance and planning for sub-national initiatives to support national malaria control programmes. We will also invite a "mayors and city managers panel" to help us address the key priorities and to guide implementation design.

Co-Chairs: Graham Alabaster & Peter Mbabazi

Coordinator: Konstantina Boutsika

Technical support: Sunghea Park

Rapporteur: Jessica Dennehy
