

Vector Control

Learnings from implementing in emergencies

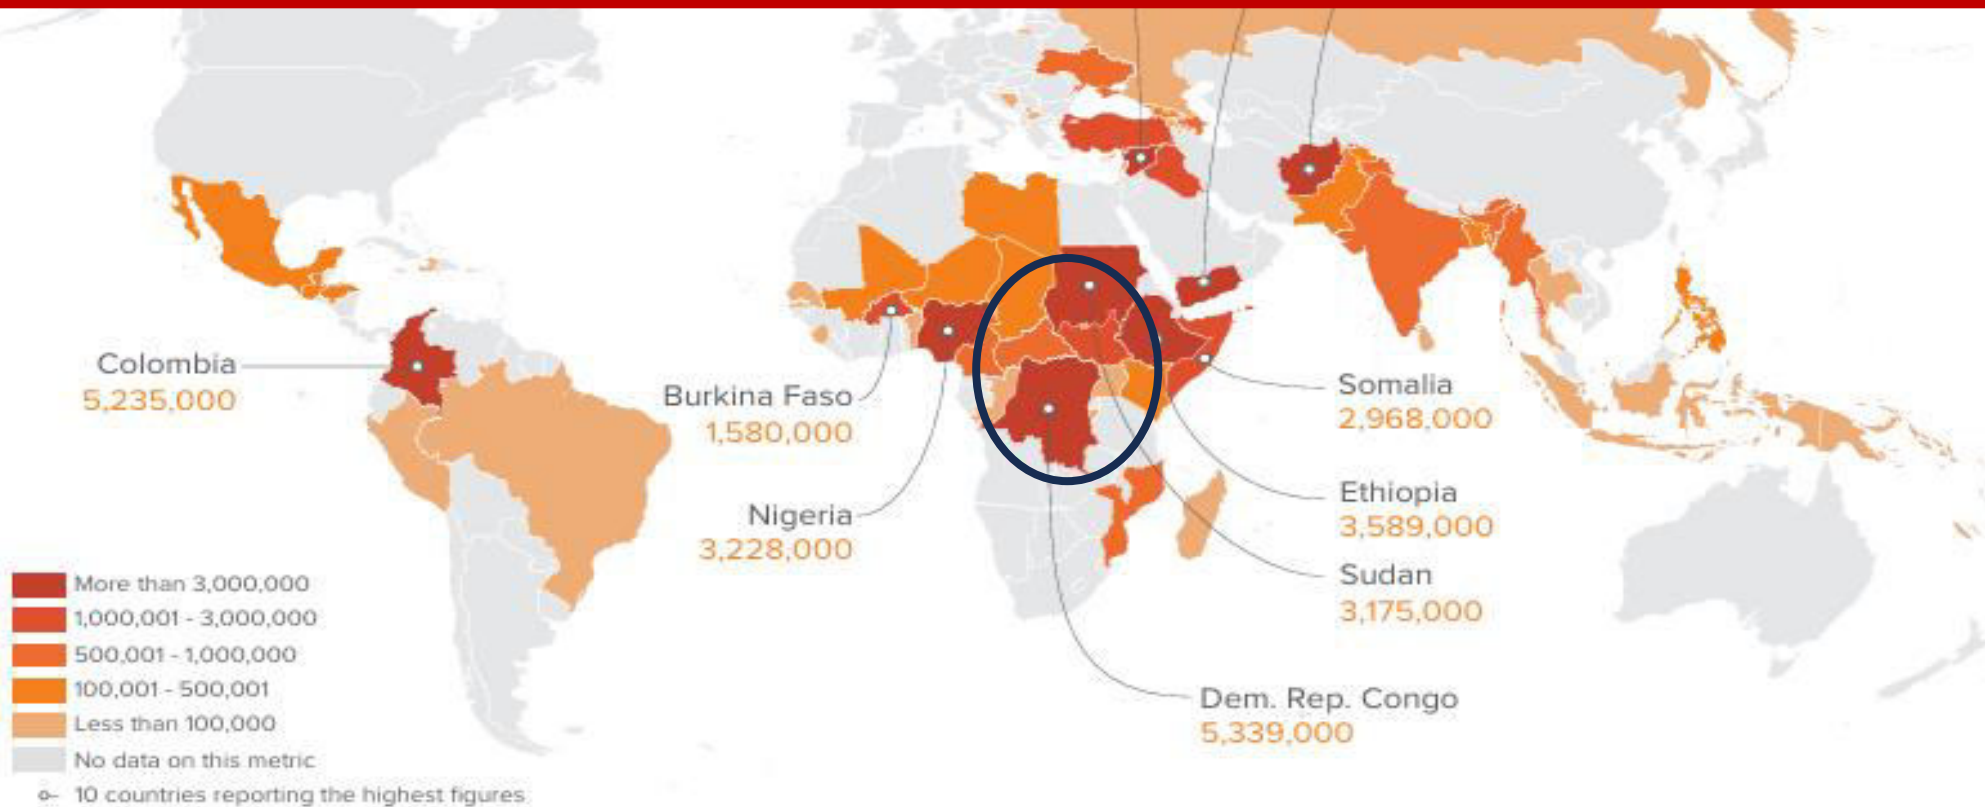

Where we work

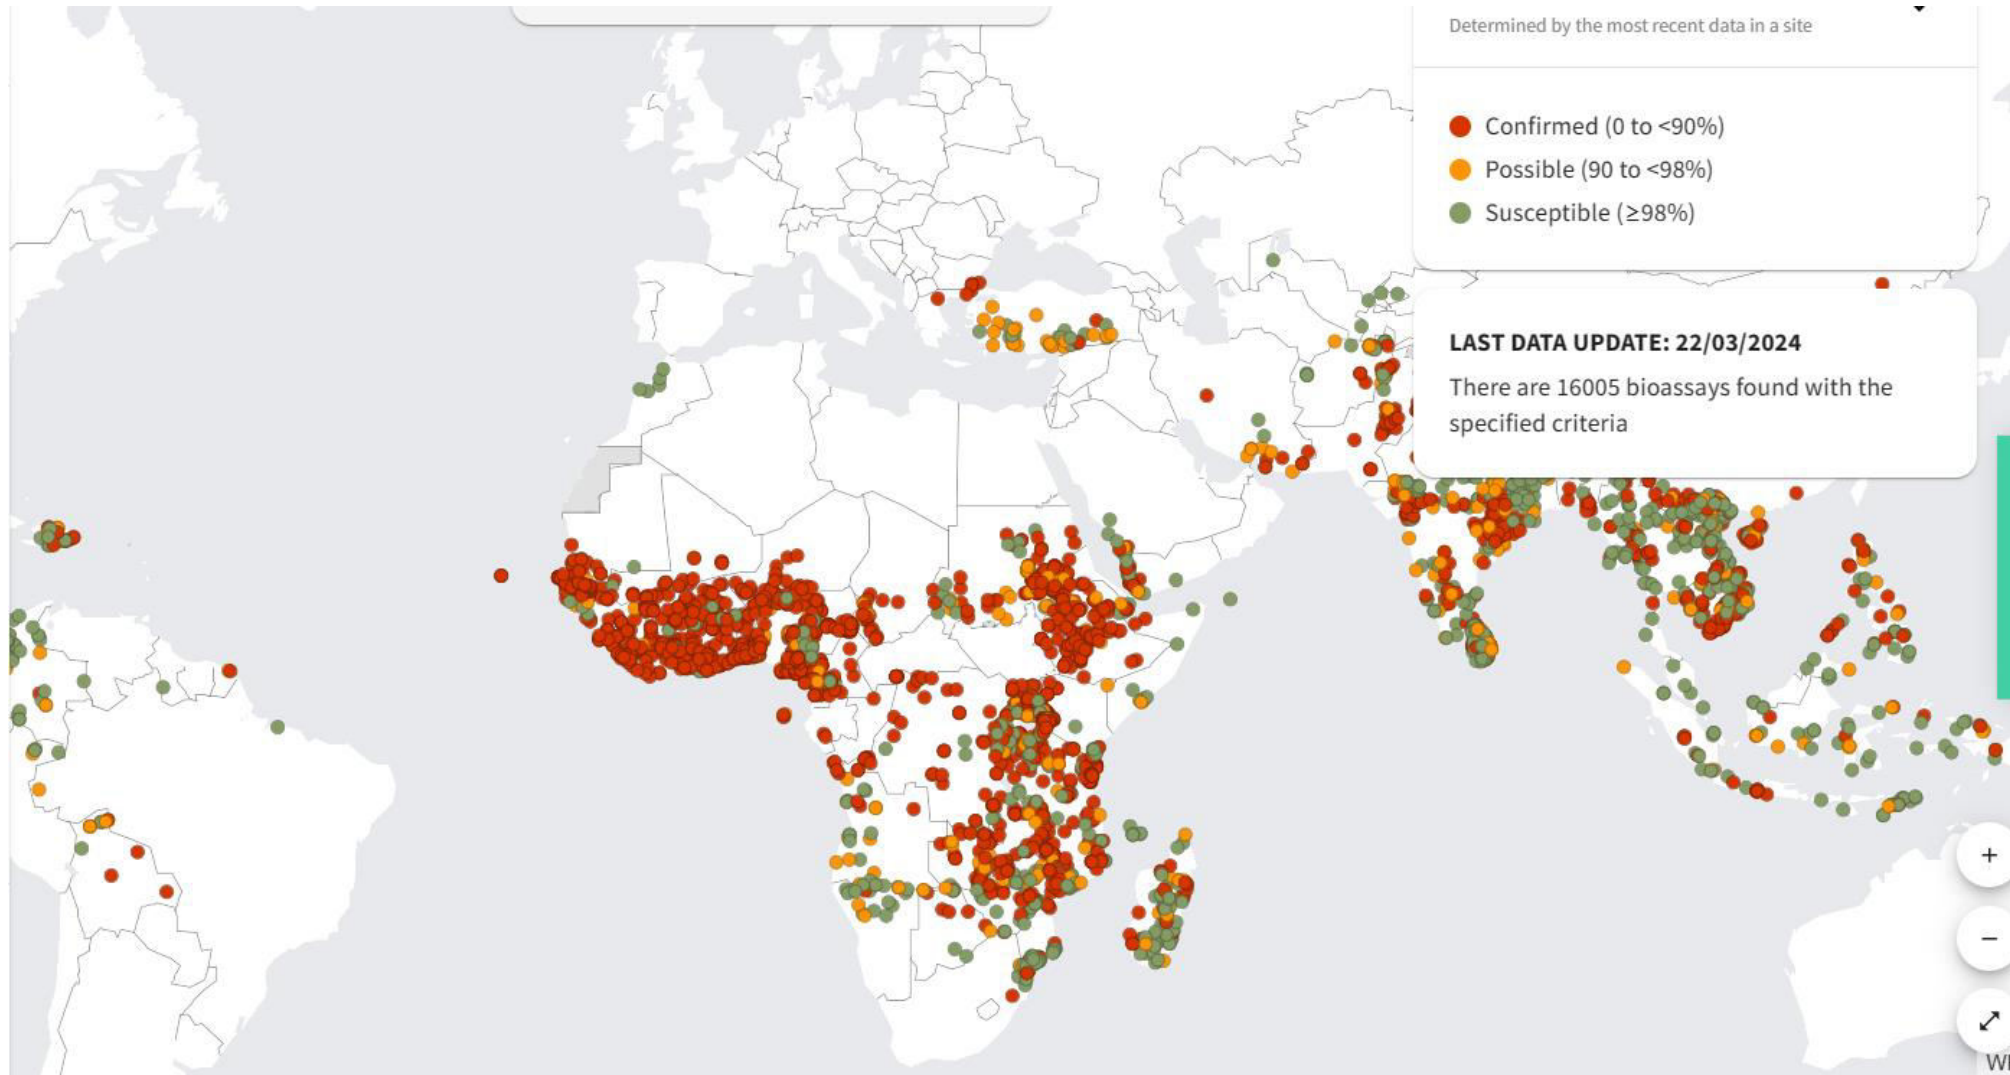

51.9 million internally displaced through conflict (IDMC)

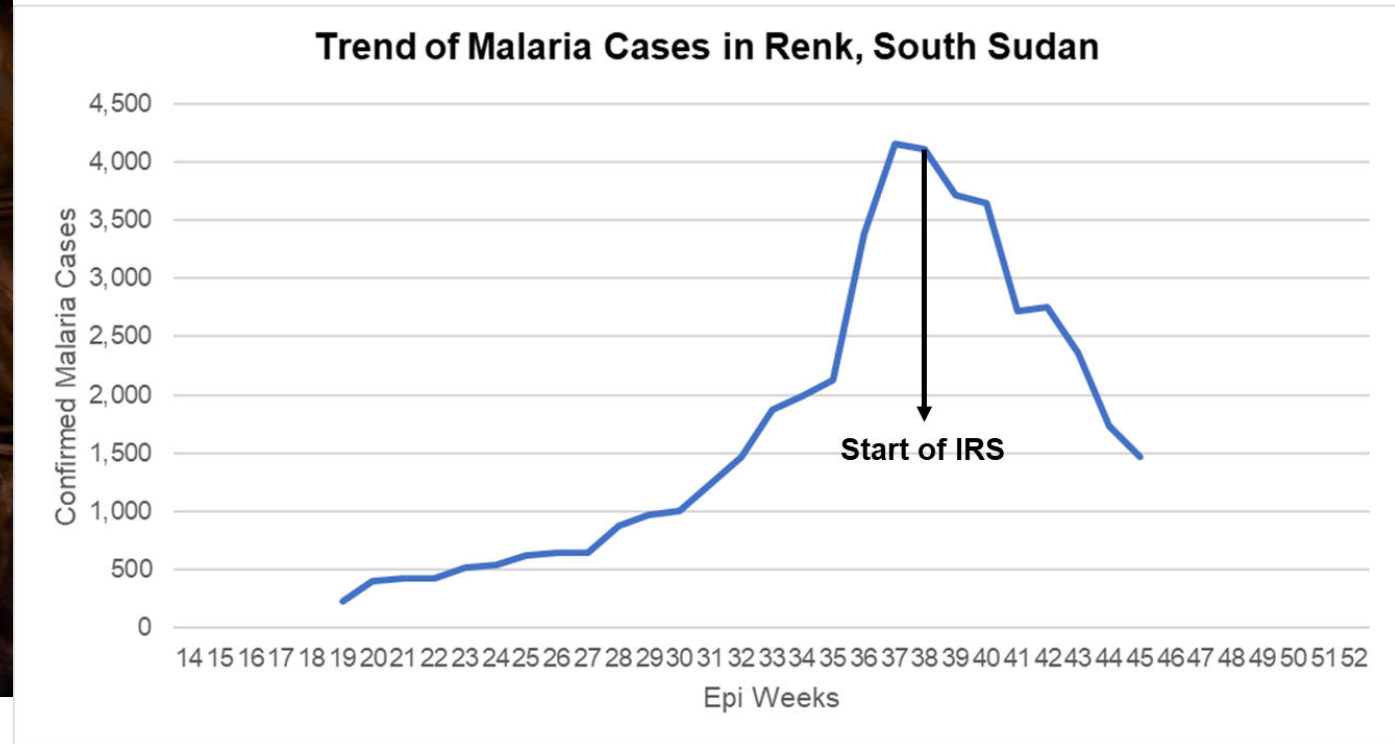

“The average conflict duration is more than 30 years” UN Protection of Civilians Report 2023

WHO pyrethroid resistance data gaps

It is still possible to show impact

Ideal vs Adapted

- Planning - weeks not months
- Denominator
- Flexible funding
- Tool/ Water Availability

Challenging environments

- Technology
- Humanitarians – a target
- HR

Data

- Quality is a challenge
- RCTs during conflict?
- But without the evidence base we can't respond effectively
- Impact on Global Goals

Thank you
