

Strategies for improving efficiencies of LLIN distribution in the face of dwindling resources: A UNICEF Perspective

- Continuing to scale-up LLIN delivery through ANC & EPI
- Distribution during child and maternal health weeks or days
 - UNICEF child health days study showing increased use
- Scaling up BCC for LLINs
- Focusing on the equity agenda – reaching the most vulnerable
- Innovations
 - Monitoring for RESults (MoRES) – increasing M&E especially at community level
 - Mobile Health (m-Health)
