</table>

### Short term priorities (First 12 months)

1. Develop a plan for improving advocacy for:
   i. Scaling up Malaria service delivery and improved quality (Ricki O)
   ii. SMC (Pierre H)
   iii. Improved supply chain management across partners (Grace A)

2. Compile and disseminate existing tools for achieving quality in case management (Meera V)

3. Identify lessons learnt from success stories in malaria service delivery around the world (Gladys T)

4. Update CMWG webpage to link to resources, partners contacts, partner activity map and project resource pages (Konstantina B)

5. Develop a plan for sharing tools to improve supply chain management (Grace A)

6. Organize the 2020 annual meeting and coordinate ASTMH presence (Konstantina B)

7. Actively link with other relevant RBM WGs to identify areas of shared interest (Co-chairs)

8. June WG call to debrief on the upcoming SMC, WHO private sector, ICCM meeting and Meeting on severe malaria and identify priorities for work group & identify activities for CMWG (Co-chairs to assign based on attendance)

### Longer term priorities (Beyond 12 months)

- Identify any gaps in tools for improving quality of service delivery in malaria that are available and fill them (Moussa T)
- Organize a workshop with NMCP CM focal persons to share experiences, tools, and lessons on improving and maintaining quality of case management services. (TBD)
- Develop an access mapper tool (TBD)

- Create a forum for improved coordination of partners and NMCPs around supply chain management (Grace A)
