RBM Partnership to End Malaria

The largest global multi-stakeholder platform to fight malaria

- Provides a forum to engage, amplify and align partners across sectors and geographies to increase progress towards the global malaria goals.
- Has been able to form effective partnerships both globally and nationally, increasing the core strength of the organisation.
- Partners work together to scale up malaria-control and elimination efforts at country level, coordinating their activities to avoid duplication and fragmentation, and to ensure optimal use of resources.
- Actively aims to harness the power of the partners to “Achieve more, together”.

The Revitalised RBM: A Renewed Partnership

• Greater **multi-sectoral engagement and cross-border** collaborations will characterise the new Partnership and will enable it to realise the goals and targets of the Global Technical Strategy, AIM and Sustainable Development Goal (SDG) 3.3.

• These changes are expected to make the Partnership more able to respond to the changing needs of the SDGs environment and **strengthen the Partnership’s ability** in the following ways:

  - Create forums for committed partners to engage in collective action.
  - Provide efficient operational coordination to support endemic countries in all malarious regions.
  - Deepen expertise in RBM’s core functions: resource mobilisation, communications, and country support & financing.
  - Engage senior leadership from countries, donors, and other partners to keep malaria high on the agenda and sufficiently funded.
RBM Working Groups

• The WG is established to convene and coordinate RBM Partnership members around a defined technical intervention area to facilitate learning and share best practices from the field;

• WGs are accountable to the RBM Board through the CEO

• WGs must be accredited by the RBM Board

• The governance of the WG ensures adequate participation of malaria-affected countries;
RBM Working Groups

• The WG demonstrates a self-financing and self-convening capacity;

• The WGs will submit quarterly update on their work to the CEO, and annual reports (including financials) to the Partnership Board on the activities they have engaged in during the previous calendar year.

There will also be a quarterly coordination meeting between the Co-chairs of the Working Groups and the PC Co-chairs, to be chaired by the CEO.
RBM Working Groups

- Case Management Working Group (CMWG)
- Monitoring and Evaluation Reference Group (MERG)
- Malaria in Pregnancy Working Group (MiP)
- Social and Behavior Change Communication Working Group (SBCCWG)
- Vector Control Working Group (VCWG)
- Multi-Sectoral Working Group (MSWG)

RBM Partnership’s Strategic Priorities for 2018-2020

1. Keeping malaria high on the political and developmental agendas through a robust multi-sectoral approach to ensure continued commitment and investment to achieve the GTS and AIM milestones and targets.

2. Promote and support regional approaches to the fight against malaria anchored in existing political and economic platforms such as regional economic communities, including in complex/humanitarian settings.

3. Promote and advocate for sustainable malaria financing with substantial increases in domestic financing.
General CRSPC Areas of Support

Ensure countries have sufficient funding, capacity and political commitment to implement their National plan

- Political accountability through EMCs and parliamentary committees
- Programmatic gap analyses/situation analyses, ROIs etc
- Country implementation support to address bottlenecks
- Regional Co-ordination and collaboration
- Country level Resource Mobilisation
- National Strategic Plans
CMWG Opportunities for Engagement

• CMWG Co-chairs participates in the CRSPC Steering Committee: Provides an opportunity to work with other co-chairs of WGs (VCWG, MIPWG, MERG) and CRSPC workstream leads

• CRSPC sub-regional meetings provide an opportunity to engage with countries, other working groups, and partners, disseminate working group products.
  • September/October 2019 meetings planned for West and Central, and East and Southern Africa.
  • SEAR – April 2019
RBM Sub-Regional Meetings held for Western & Central and Eastern & Southern Africa
CMWG Opportunities for Engagement

• CRSPC provides implementation support to countries. – CMWG can also help to source and mobilise partner support to address country level bottlenecks
  ✓ CRSPC consultants roster expanded to include CM implementation support TA.

• GF application support rolling out from Q4 2019 and
• Support to GF replenishment advocacy at every opportunity
Global Fund Replenishment Advocacy

The next few months will be critical for raising visibility of malaria and securing renewed commitments to fight the disease. In October 2019, the Global Fund to Fight AIDS, Tuberculosis, and Malaria is up for replenishment.

To ensure the global Fund is replenished successfully, we will require influential voices and innovative campaigns to keep malaria highly visible on the political agenda—but also in the hearts and minds of people everywhere.
Milestone Moments 2019

Opportunities for engagement

2019

February
African Union Summit in Addis Ababa
Pre-replenishment conference in New Delhi

April
World Malaria Day & event in Paris

July
African Union Summit in Niamey, Niger

September
UN General Assembly
Global Fund Replenishment Conference in Lyon

October
Reaching the Last Mile conference in Abu Dhabi

November
