

Partnership
To End Malaria

7th February, 2018

LLIN Priorities Workstream Meeting

Hannah Koenker & Lena Lorenz

Activities 2017

5 Major Topics:

- (1) Durability monitoring
- (2) ITN distribution
- (3) Next-Generation Nets
- (4) ITN M&E issues (with MERG)
- (5) ITN use issues (with SBCC and AMP)

Monthly conference calls from September 2017

MailChimp listserv

Workplan Item Completed	Resource
Interpreting Durability Monitoring Interim Results	VectorWorks for PMI; available at: http://www.vector-works.org/resources/
Population access to ITNs as main indicator of universal coverage	Paper forthcoming; ASTMH presentation available http://www.vector-works.org/resources/
Cost-effectiveness of continuous distribution vs repeated mass campaigns	Josh Yukich & Olivier Briët; presentation at VCWG-13
ITN repurposing	Draft joint consensus statement on with AMP EIWG; RBM SBCC WG
Mosquito net fishing	Multisectoral workshop (Zoological Society of London & Oxford Martin School)

Agenda

Durability Monitoring

- Pooled analysis of LLIN durability monitoring studies (Olivier Briët)
- Location-adjusted hole surface area to estimate functional effectiveness (Sarah Moore)
- Differentiating between LLIN durability and serviceability (Jim Sutcliffe)

ITN Distribution / Next Generation Nets

- Cost-effectiveness of LLIN distribution strategies (Josh Yukich)
- Community randomised trial testing PBO LLIN and IRS in Tanzania (Natacha Protopopoff)

WHO Pre-Qualification Team Vector Control

PQT-VC Approach to Post-Market Activities (Marion Law)

7th February, 2018
