

Partnership

To End Malaria

Case Management Working Group

Task Force on Case Management Best Practices and Tools

CMWG Task Force on Case Management Best Practices and Tools

Mandate:

- Collect, vet, and centrally disseminate existing resources and tools designed to strengthen case management, including:
 - Diagnosis and clinical management at all levels
 - Supply chain
 - SMC
- Identify if there are any key gaps in best practices resources/tools

Progress so far...

- Task force chairs and CMWG secretariat established what can be done by secretariat and where IM will provide support for soliciting and 'banking' documents
- Task Force call (invite all CMWG members) to:
 - brief folks on the plan
 - ask for inputs
- Email to collect tools and best practices documents established and shared
- Repeat email a couple of times as a reminder
- Present back to WG for discussion (this meeting)

Tools submitted so far...

Resource	Resource Type	From	Affiliation
Treatment of uncomplicated malaria among women of reproductive age	Job Aid	Katherine Wolf	Jhpiego
WHO guideline on health policy and system support to optimize community health worker programmes	Guidelines	Ari Johnson	Muso; UCSF Global Health Sciences
