

# **RBM Partnership**

Vector Control Working Group

Reconstituting the RBM WIN

VCWG WIN-5 Meeting

Basel, Switzerland  
February 8-9, 2010

# Vector Control Working Group (WIN)

## Objectives

- Assembling evidence on best practices
- Identifying operational constraints
- Developing implementation guidance frameworks
- Managing fora for consensus
- Operations research agendas

## Work streams

- Resistance monitoring & management
- Durability of LLINs & IRS
- Integrated systems for continuous LLINs distribution
- IRS + LLINs combination & long term control
- Guidance frameworks for effective IRS
