| 15.00      | Close                                                                                       | Steve Lindsay                     |
Housing and Malaria Work Stream
1st Meeting

Thursday 20th February, 17.15-18.30
Auditorium, ICRC
New RBM/UNDP calls for action outside the health sector to control malaria – including housing

Multisectoral Action Framework for Malaria
Future opportunities

• Quiet revolution in housing in Africa from thatch to metal roofed houses
• 144M houses to be built in rural Africa by 2050
• African economies have a 6% growth rate GDP/year
• 30% increase in income/person in last 10 years
