Resilience in the face of COVID-19

Potential cancellations of campaigns

2020 was scheduled to be a major year for LLIN campaigns, with 30 campaigns scheduled, and nearly all risking cancellation in March due to COVID-related disruptions to the health workforce and unclear safety guidance.

Supply chain disruptions

Lockdowns in supplier countries, changing priorities of manufacturers, and disruptions to the global supply chain increased the risk of shortages of ACTs, RDTs, PPE, and other essential commodities.

Shifting global attention

COVID-19 decimated economies and dominated headlines. Resources have become limited, while malaria risked being deprioritized by governments.
Resilience in the face of COVID-19

Campaigns back on track
- Over 95% of LLIN campaigns have been rolled out. IRS, SMC also on track.
- Technical assistance provided to 56 countries in 2020, as well as to ECCAS and WAHO.
- Guidance on COVID-safe malaria campaigns developed and mainstreamed through WHO working groups.

Supply chain crises averted
- All major stockouts of ACTs and RDTs largely averted due to quick responses and coordination.
- Improved tracking of commodity stocks and fast, innovative responses.

High-level advocacy
- Messaging on the need to continue the malaria fight during the pandemic.
- Outreach to Ministers, Development Banks and Heads of State to ensure malaria commitments were maintained.
- Malaria highlighted at major advocacy convenings, ensuring calls to action were heard by world leaders.
