

# Multisectoral Action to End Malaria

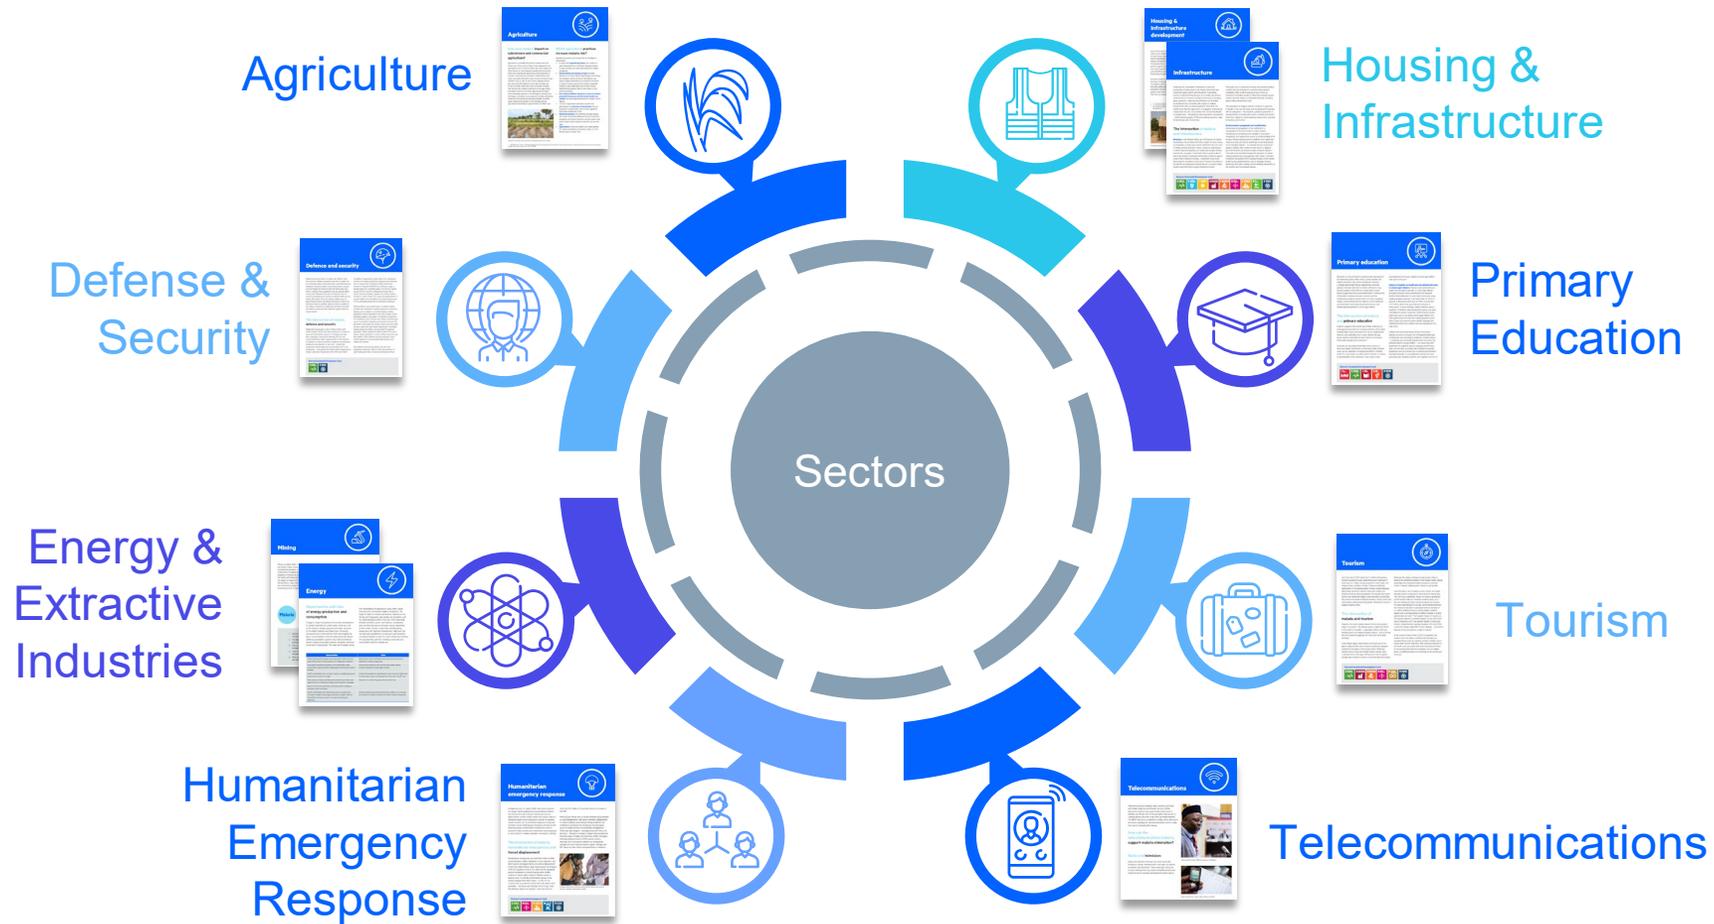

# **Overview of the Multisectoral Guides to End Malaria**

**Dr Joshua Levens**  
**ARMPC Manager**

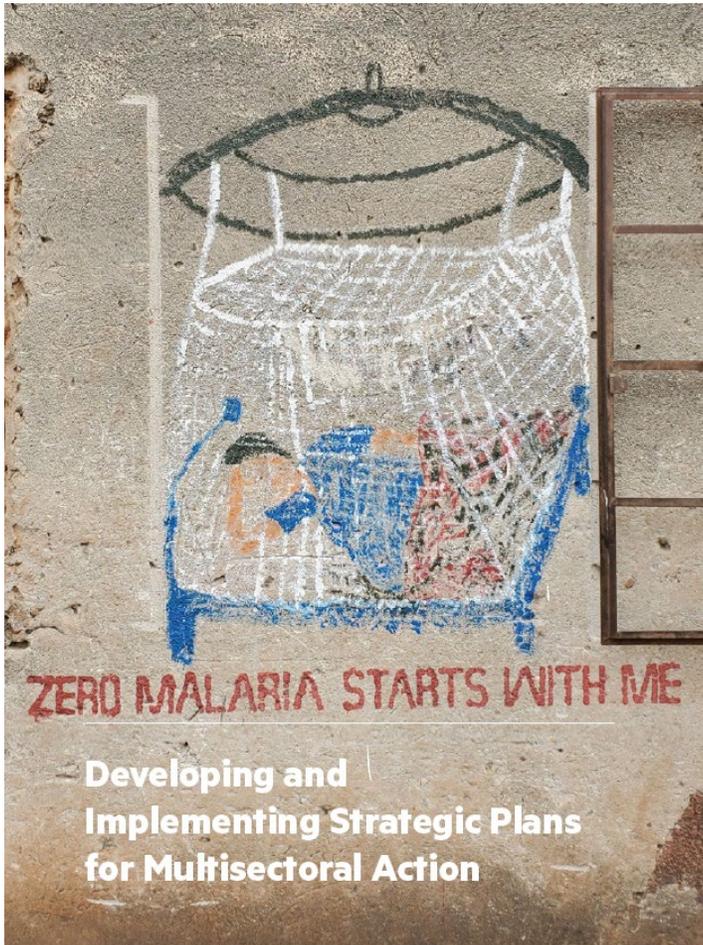

The RBM  
Partnership has  
developed two  
new guides on  
multisectoral  
action to end  
malaria

# The multisectoral guides contain case studies and best practices across 8 sectors

# The guide provides a step-by-step process to develop and implement a multisectoral strategy

# How to use the guides

## The multisectoral guides can help:

- Inspire and inform new, strategic multisectoral engagements
- Help identify shared goals and mutual areas of opportunity across sectors
- Advocate for malaria-smart practices and policies outside the health sector
- Support the creation of a policy framework conducive to multisectoral action
- Promote multidisciplinary research to generate evidence supporting multisectoral action and to identify gaps

## Each sector overview contains:

Intersection with malaria

Data, benchmarks, and examples of the intersection between the sector and malaria

Opportunities for action

Activities that can be undertaken with the sector to support malaria control and elimination

Taking action

Key actors, entry points for engagement, capabilities to develop

Accountability

Recommendations on how to create sustainable accountability structures for multisectoral action

Case studies

Multisectoral examples from malaria endemic countries
