</table>
• Extended follow-up training
  – Increased follow-up training agenda from 3 to 4 days
  – More time for practical activities and learning, where necessary

• Strengthened ODK files
  – Additional internal logic checks to minimise errors

• Master syntax for data analysis
  – More detailed comments and syntax descriptions to facilitate uptake
  – Added use of `tabout` to automate table output to Excel

• Move to SurveyCTO platform
  – More user-friendly outputs and easier field submission of data
  – Cost $200 per country per active month

• Bioassay activities
  – On hold pending new SOPs
