

## RBM PARTNERSHIP TO END MALARIA

### Nomination and Selection Pack for RBM Advocacy and Resource Mobilization Partner Committee (ARMPC) Co-chairs

#### Background

Since 1998, the RBM Partnership to End Malaria (formerly Roll Back Malaria) has been central to the global fight against malaria. The past twenty years have seen tremendous gains in reducing the burden of disease and progressing towards malaria elimination.

Since 2000, working in global partnership and solidarity, we have made historic progress against malaria, saving an estimated 7.6 million lives, preventing over 1.5 billion new malaria infections, and setting the world on a path to end the disease once and for all. As the global, multisectoral platform for coordinated action to end malaria, the RBM Partnership's work will be instrumental in achieving the ambitious 2025 and 2030 malaria reduction and elimination targets and milestones, as well as Sustainable Development Goals (SDGs).

The RBM Partner Committees are intended to formalize, consolidate and amplify the Partnership priorities of advocacy, resource mobilization, and country/regional support. The work of these Partner Committees is expected to align with the priorities outlined in the Global Technical Strategy 2016-2030 and Action and Investment to Defeat Malaria (AIM) 2016-2030, as well as with the Partnership Strategy and Annual Budget and Workplans.

The RBM Partner Committees (PCs) are:

- Advocacy & Resource Mobilization
- Country/Regional Support
- Strategic Communications

More information about the RBM Partner Committees can be found [here](#).
