

READY TO BEAT MALARIA

With renewed focus and commitment, we can be the generation to end one of the oldest and deadliest diseases in human history. Join us this World Malaria Day.

WE'RE READY TO BEAT MALARIA - ARE YOU?

GLOBAL SCALE OF MALARIA

EVERY 2 MINUTES

a child still dies of malaria.

2016

malaria cases rose for the first time in a decade

PROGRESS AGAINST MALARIA

Since 2000, malaria related deaths have been cut by more than half, saving nearly

7 million lives

44

countries that had a high malaria burden in 2000 reported less than 10,000 malaria cases in 2016

11

countries have successfully eliminated malaria since 2010

IN 2016, THERE WERE:

216 MILLION MALARIA CASES

445,000 DEATHS

FOCUS ON AFRICA

Malaria already costs the continent's economy US\$ 12 billion per year in direct losses, and 1.3% of lost annual GDP growth

Nigeria is the highest-burden country, accounting for 27% of global malaria cases

↓ 20%

reduction in malaria cases between 2015 and 2016 in several African countries

**SENEGAL
THE GAMBIA**

ZIMBABWE MADAGASCAR

Global funding for malaria control and elimination stands at less than half of what is needed to fulfil global targets

<50%

WHY ACTING AGAINST MALARIA NOW IS CRITICAL

A global focus and action is needed to build on remarkable gains and meet 2020 and 2030 global malaria targets, and the UN Sustainable Development Goals

THIS WORLD MALARIA DAY, DECLARE YOU'RE READY TO BEAT MALARIA.

If we don't seize the moment now, our hard-won gains against the disease will be lost.
